From: Supervisor Hall
To: City Attorney
Requesting/Inquiring: To draft legislation the would (1) immediately eliminate any City position that has been vacant since July 1, 2001; (2) require that, beginning on the effective date of the ordinance, any position that remains vacant for at least four months will be eliminated; (3) create a waiver provision if the Board of Supervisors passes an ordinance, by a 2/3 vote, approves such a waiver, and only after the Department seeking the waiver has completely demonstrated to a Committee of the Board that it is actively searching for a qualified applicant; and (4) require a Department creating a new position to appear before a Committee of the Board to demonstrate that the new position is substantially different from any previously eliminated position within the Department, and then require 2/3 Board approval of an ordinance creating the new position.

From: Supervisor Hall
To: City Attorney
Requesting/Inquiring: To draft legislation that caps the total number of city employees at its current level as a percentage of the City's total population. In census years, use United States Census Department figures to determine the City's population; in non-census years, use California Department of Finance population figures to determine the City's population. Create an exception for public safety employees - police, firefighters, and sheriffs. Create a waiver provision that allows the Board to pass an ordinance, by 2/3 approval, to waive the cap upon demonstration of exigent circumstances by the Department.

From: Supervisor Leno
To: Department of Public Health
Requesting Inquiring: Inquiring about what resources the Department would need and would it be feasible for the Department to implement a licensing program for body piercing in San Francisco? The context for this inquiry is the following:

a) There is no licensing for piercing, but there is state licensing for barbers, tattoo parlors and other professional services with potential health risks.
b) Oral and other body piercings can cause allergic reactions, bacterial infections, blood infections, toxic shock syndrome and other ailments. Clearly this profession should have oversight by public health regulatory organizations.

From: Supervisor Peskin
To: City Attorney
Requesting/Inquiring: To draft legislation that would modify Section 8 of the City's Business and Tax Regulations Code to disallow serial continuances of an appeal of an enforcement action at the Board of Appeals. This legislation would address a current practice of manipulating the appeal process to enable prohibited construction to continue indefinitely.

Specifically, in Section 8, after sub-section (h), a sentence should be added to the paragraph that sets forth the process for the time and place of an appeal hearing. The inserted sentence should read similar to the following language: "In the case of an appeal of an enforcement action, the hearing shall be held no later than 45 days after the filing of said appeal. Continuances beyond the 45th day may only be granted if the conduct challenged is discontinued pending final action by the Board."

From: Supervisor Sandoval
